

DISCLAIMER

FORWARD-LOOKING INFORMATION ("FLI")

This presentation contains FLI within the meaning of applicable Canadian securities legislation regarding future events or the future performance of Itafos Inc. and its subsidiaries (collectively, the "Company"). Except for statements of historical fact relating to the Company, information contained herein may constitute FLI. Generally, FLI can be identified by the use of forward looking terminology such as "plans", "expects", "is expected", "estimates", "intends", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved", FLI in this presentation includes, but is not limited to, statements with respect to: industry dynamics and outlook; economic factors; market prices; the life of mine of the Company's assets, including Conda; the potential for additional mineral resources; the future demand for and production of P2O5 (phosphorous pentoxide); future investments in P2O5 projects; global capacity, production and operating rates; the timing and costs of future P2O5 projects; and the timing and cost of the H1/NDR mine development project. The FLI contained in this presentation is based on the opinions, assumptions and estimates of management some of which are set out herein, which management believes are reasonable as at the date the statements are made. Those opinions, assumptions and estimates are inherently subject to a variety of risks and uncertainties and other known and unknown factors that could cause actual events or results to differ materially from those projected in the FLI. These include the Company's expectations and assumptions with respect to the following: commodity prices; operating results: safety: changes to the Company's mineral reserves and resources; timing of expected permitting; optionality for further mine life extension through ownership of the H2/Freeman Ridge leases and potential third party mineral purchase agreements; changes to mine development and completion; foreign operations; changes to regulation; environmental risks; the impact of adverse weather and climate change; general economic changes, including inflation and foreign exchange rates; the actions of the Company's competitors and counterparties; financing, liquidity, credit and capital risks; the loss of key personnel; impairment risks; cybersecurity risks; transportation and infrastructure; changes to equipment and suppliers; adverse litigation; changes to permitting and licensing; loss of land title and access rights; changes to insurance and uninsured risks; the potential for malicious acts; market volatility; changes to technology; changes to tax laws; the risk of operating in foreign jurisdictions; and the risks posed by a controlling shareholder and other conflicts of interest. Although the Company has attempted to identify crucial factors that could cause actual actions, events or results to differ materially from those described in FLI, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that FLI will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. The reader is cautioned not to place undue reliance on FLI. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates, assumptions or opinions should change, except as required by applicable securities law. Risks and uncertainties affecting the FLI contained in this presentation are described in greater detail in the Company's current Annual Information Form and current Management's Discussion and Analysis ("MD&A") available under the Company's profile on SEDAR+ at www.sedarplus.ca and on the Company's website at www.itafos.com.

This presentation also contains future oriented financial information and financial outlook information (together, "FOFI") about the Company's prospective results of operations. FOFI is subject to the same assumptions, risk factors, limitations and qualifications as set forth in the above paragraph. The Company has included the FOFI to provide an outlook of management's expectations regarding anticipated activities and results, and such information may not be appropriate for other purposes. The Company believes that the FOFI has been prepared on a reasonable basis, reflecting management's reasonable estimates and judgements; however, actual results of operations and the resulting financial results may vary from the amounts set forth herein. Any financial outlook information speaks only as of the date on which it is made and the Company undertakes no obligation to publicly update or revise any FOFI except as required by applicable securities laws.

INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS") AND NON-IFRS MEASURES

The Company prepares its financial statements in accordance with IFRS as issued by the International Accounting Standards Board. IFRS differs in certain respects from US generally accepted accounting principles ("US GAAP"). Therefore, financial information presented herein may not be directly comparable to similar information presented by companies that prepare their financial statements in accordance with US GAAP. This presentation contains both IFRS and certain non-IFRS measures that management considers to evaluate the Company's operational and financial performance. Non-IFRS measures are a numerical measure of a company's performance, that either include or exclude amounts that are not normally included or excluded from the most directly comparable IFRS measures. Management believes that the non-IFRS measures provide useful supplemental information to investors, analysts, lenders and others. In evaluating non-IFRS measures, investors, analysts, lenders and others should consider that non-IFRS measures do not have any standardized meaning under IFRS and that the methodology applied by the Company in calculating such non-IFRS measures may differ among companies and analysts. Non-IFRS measures should not be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with IFRS. The non-IFRS measures included in this presentation are as follow: adjusted EBITDA ((Net income (loss) and operating income (loss)); Adjusted EBITDA margin (adjusted EBITDA and revenues); net leverage ratio (current debt, long-term debt and cash and cash equivalents; net income (loss) and operating income (loss) for the current and preceding three quarters); free cash flow (cash flows from operating activities and cash flows from investing activities); maintenance capex (additions to property, plant and equipment and mineral properties); and growth capex (additions to property, plant and equipment and mineral properties). Definitions and reconciliations of the non-IFRS measures used in this presentation (other than Adjusted EBITDA Margin) are available in Section 8 of the Company's most recent MD&A, which is incorporated by reference herein, and available under the Company's profile on SEDAR+ at www.sedarplus.ca and on the Company's website at www.itafos.com. Additional reconciliations for Adjusted EBITDA Margin are also included in the Appendix to this presentation.

MINERAL RESERVES AND MINERAL RESOURCES

This presentation uses Mineral Reserve and Mineral Resource classification terms that comply with reporting standards set forth in Canadian National Instrument ("NI") 43-101 for all public disclosure of scientific and technical information concerning mineral projects by Canadian registered issuers. NI 43-101 standards differ significantly from standards set forth by the United States Securities and Exchange Commission ("SEC"). Therefore, information regarding mineralization presented herein may not be directly comparable to similar information disclosed by companies in accordance with SEC standards. For instance, Mineral Reserve estimates contained in this presentation may not qualify as "reserves" under SEC standards. The reader is cautioned not to as sume that any part or all of the Mineral Resources identified as "Mineral Resources." "Measured Mineral Resources." "Indicated Mineral Resources" and "Inferred Mineral Resources" in this presentation will ever be converted into Mineral Reserves as defined in NI 43-101, be upgraded to a higher category, or be economically or legally mineable. The Company's latest respective technical reports are available under the Company's profile on SEDAR+ at www.sedamlus.ca and on the Company's website at www.itafos.com.

QUALIFIED PERSONS

Scientific and technical information contained in this presentation has been reviewed and approved by the following respective qualified persons, as defined by National Instrument 43-101 ("NI 43-101"):

- Regarding mineral resources and other scientific and technical information for Conda and Farim is Jerry DeWolfe, Professional Geologist (P.Geo.) with the Association of Professional Engineers and Geoscientists of Alberta, Mr. DeWolfe is a full-time employee of WSP Canada Inc. (WSP, formerly known as Golder Associated Ltd.) and is independent of the Company.
- Regarding mineral reserves for Conda and Farim is Terry Kremmel, Professional Engineer (P.E.) licensed by the State of Missouri and North Carolina, Mr. Kremmel is a full-time employee of WSPUSA, Inc. and is independent of the Company.
- Regarding mineral resources for Arraias and Santana is Carlos Guzmán, FAusIMM (229036), Mining Engineer, RM (Chilean Mining Commission), Mr. Guzmán is a full-time employee of NCL Brasil Engenharia Ltda, and is independent of the Company,

The Company's latest technical reports are as follows, which are each are available under the Company's website at www.itafos.com and under the Company's profile on SEDAR+ at www.sedarplus.ca:

- Conda the technical report titled "NI 43-101 Technical Report Itafos Conda Project Idaho. USA" with an effective date of July 1, 2023 (the "Conda
- Arraias the technical report titled "Updated Technical Report Itafós Arraias SSP Proiect, Tocantins State, Brazil" with an effective date of March 27, 2013;
- Farim the technical report titled "Farim Phosphate Project NI 43-101 Technical Report and Feasibility Study" with an effective date of May 17, 2023 (the
- Santana the technical report titled "Feasibility Study (FS) Santana Phosphate Project. Pará State, Brazil" with an effective date of October 28, 2013;

Additional information regarding Conda, including information regarding data verification, key assumptions, parameters and methods used to estimate mineral reserves and mineral resources and the risks that could materially affect the development of the mineral reserves and mineral resources required by NI 43-101 can be found in the Conda Technical Report.

THIRD PARTY SOURCES

This presentation includes market and industry data which was obtained from various publicly available sources and other sources believed by the Company to be true. Although the Company believes it to be reliable, the Company has not independently verified any of the data from third party sources referred to in this presentation, or analyzed or verified the underlying reports relied upon or referred to by such sources, or ascertained the underlying assumptions relied upon by such sources. The Company does not make any representation as to the accuracy of such information.

OTHER

This presentation includes measurements expressed in metric tonnes. All financial figures reflected in United States Dollars (USD). The information presented herein was approved by management of the Company on March 19, 2025.

OUR BUSINESS

A pure-play phosphate and specialty fertilizer company.

OUR PURPOSE

Our purpose is to feed a growing world population, nourish planet Earth's soil, and contribute to human nutrition.

CONDA

(flagship vertically integrated phosphate fertilizer production)

(phosphate mine project)

(phosphate mine project)

ARRAIAS

(vertically integrated phosphate fertilizer production)

Itafos continues to focus on creating longterm shareholder value to close valuation gap to peers.

Operational Excellence

- ✓ High utilization
- ✓ Long-term offtake and supply contracts

Disciplined Investment

- Diligently maintaining assets to drive performance
- ✓ Proactively investing in projects to increase resources and enhance quality of operations

High-Grading Portfolio

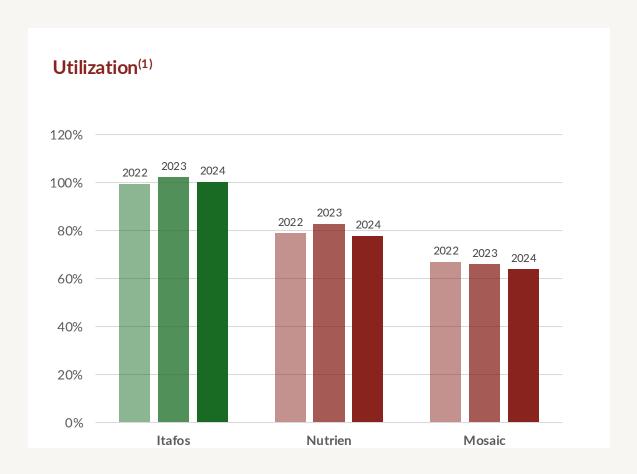

- Maximizing value of foreign assets
- ✓ Returning excess cash to shareholders over the long-term

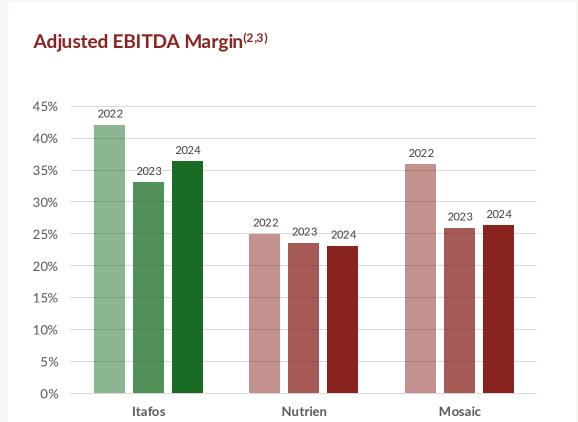

OPERATIONAL EXCELLENCE

Top-tier execution that drives best in class operating margins

^{1.} Utilization calculated as total production of MAP, MAP+, SPA, MGA and APP at IFOS Conda facility divided by nameplate capacity and as published for Phosphate segment results for Nutrien and Mosaic.

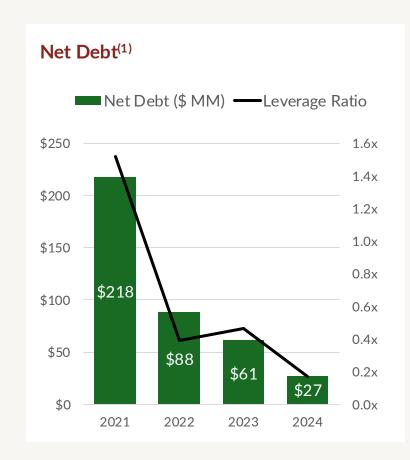

^{2.} Non-IFRS measures; refer to disclaimer, appendix and the Company's MD &A for definitions and reconciliations.

^{3.} Adjusted EBITDA margins calculated as cumulative Adjusted EBITDA divided by cumulative net sales for each company's Phosph ate segment on a year-to-date basis; IFOS Adjusted EBITDA margin for Conda results only. See Adjusted EBITDA Margin Reconciliation for calculations and additional details

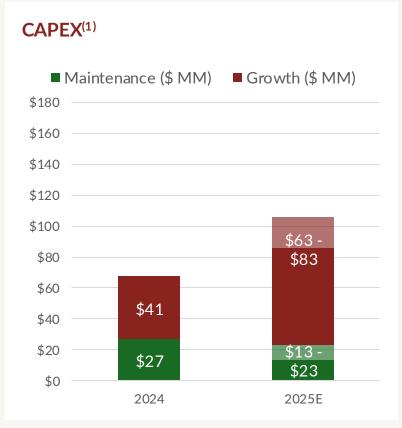

DISCIPLINED INVESTMENT

Fortress balance sheet and ample liquidity to support current business and high-grade portfolio

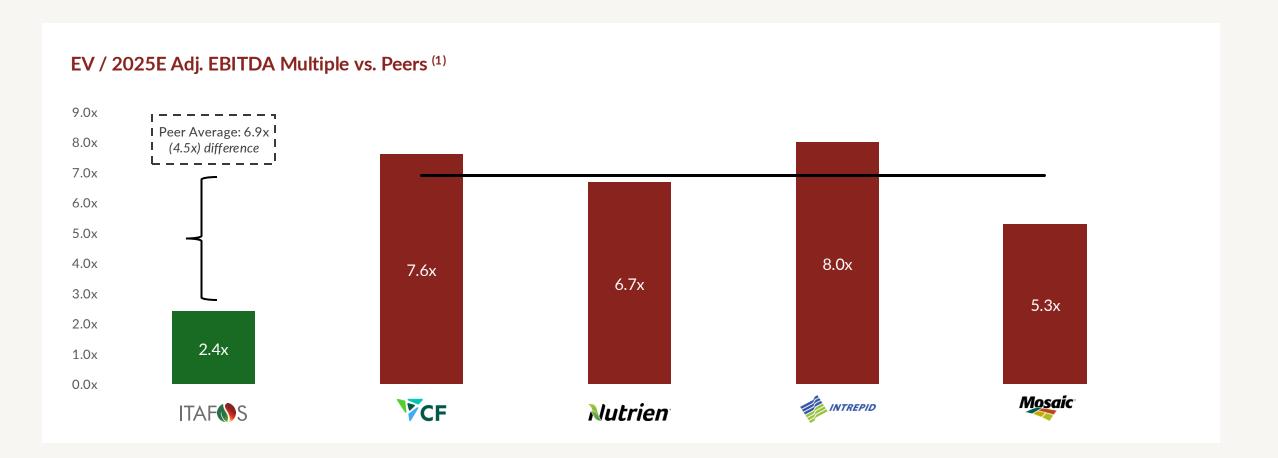

VALUATION GAP

Itafos trades at a significant multiple discount to peers

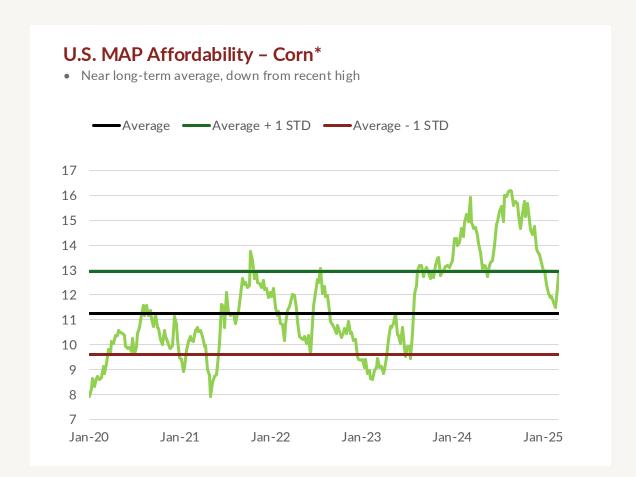

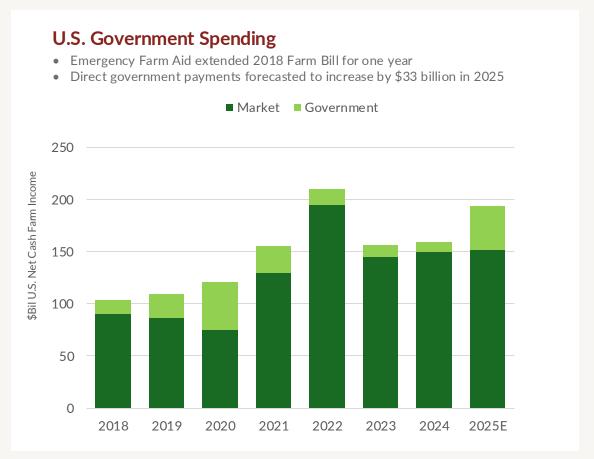

POSITIVE CROP FUNDAMENTALS

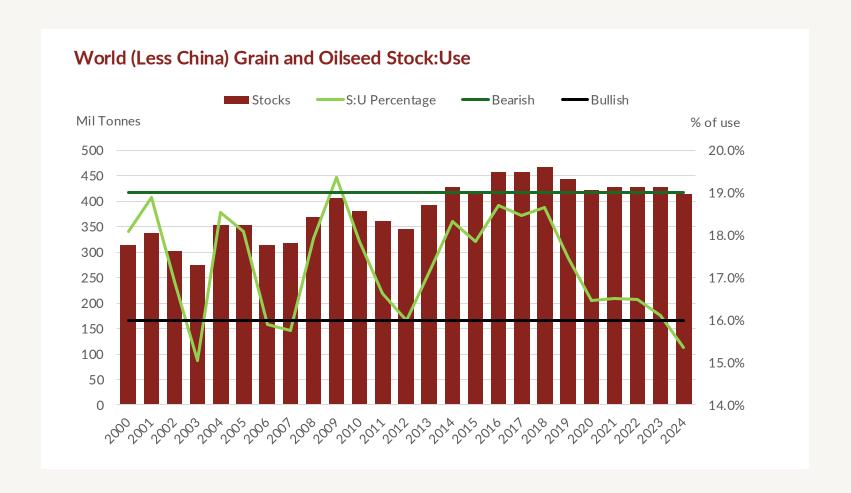

Improving MAP affordability and increasing government spending help U.S. farmers

STOCK: USE RATIO REMAINS BULLISH

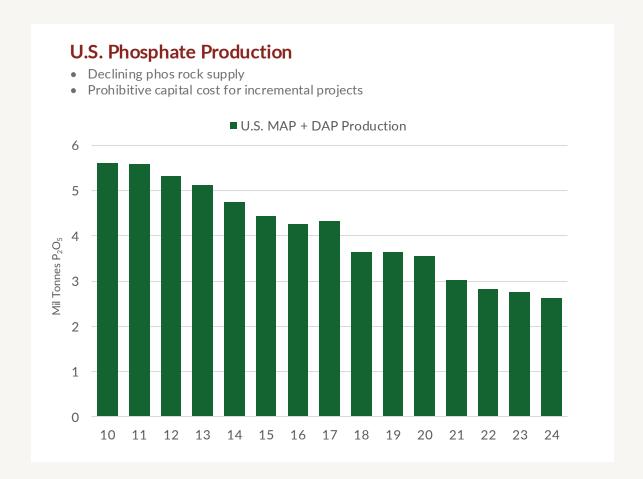

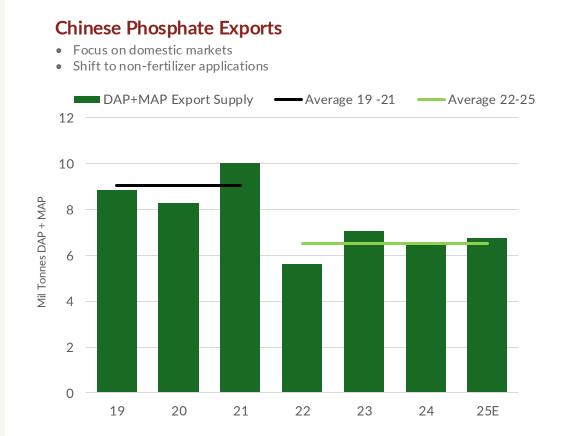

Global S:U ratio is forecast to decline to 15.4%, lowest level since 2003

PHOSPHATE SUPPLY CONSTRAINED

U.S. production continuing downward trend, step change in Chinese export supply

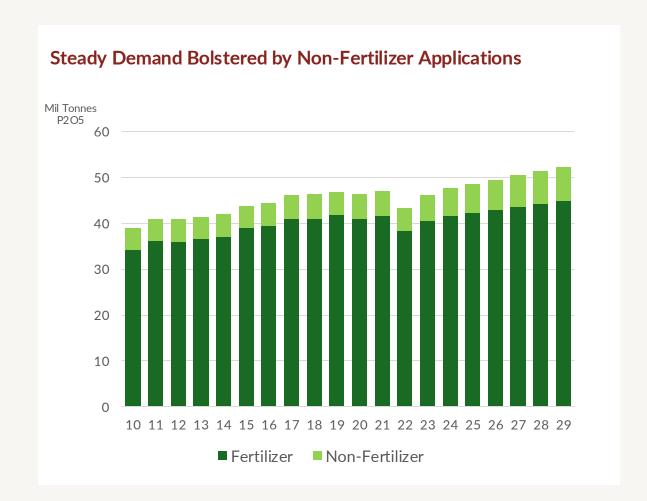

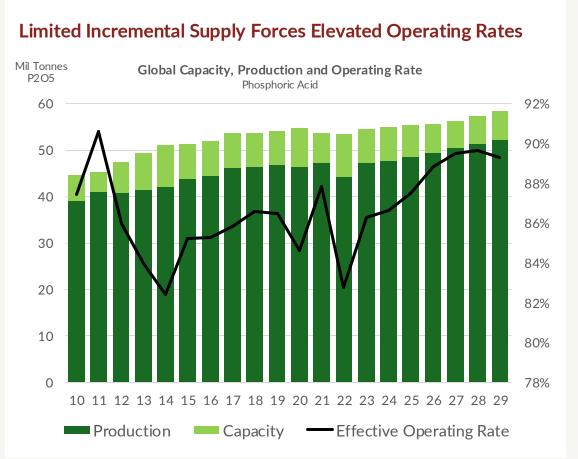

CONSTRUCTIVE LONG-TERM PHOSPHATE FUNDAMENTALS

Global phosphoric acid supply and demand balance is expected to be tight through the decade

CONDA: FLAGSHIP BUSINESS

Flagship vertically integrated phosphate fertilizer business

- Situated in Idaho, a mining-friendly jurisdiction
- Itafos owns 100%
- In operation for over 30 years
- Strategic location offers multiple options to deliver P₂O₅ value to North America fertilizer markets
- Husky 1 / North Dry Ridge ("H1/NDR") development project extends current mine life to 2037

CONDA: HUSKY 1 / NORTH DRY RIDGE DEVELOPMENT

Expanding mine life through 2037, ensuring stable ore supply for fertilizer production

- May 8, 2023: received Notice to Proceed for the H1/NDR mine development project, initiating capital activities
- April 29, 2024: filed the Conda Technical Report in accordance with the NI 43-101, demonstrating mineral reserves to support continued operations at Conda through 2037

• Capital Projects:

- NDR haul road
- Tipple loadout and rail
- Maintenance shop / warehouse

Milestones:

- NDR mining commenced in 2024
- First ore to plant expected in 2H 2025

H1/NDR tipple and stockpile area

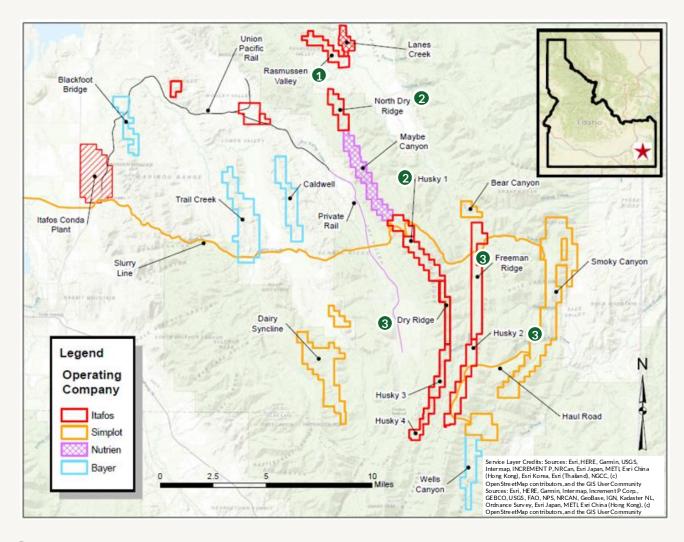

Ore loading tunnel

CONDA: LONG-TERM EXPLORATION OPPORTUNITIES

Looking beyond 2037

Potential for Additional Mineral Reserves Through Leases and Third-party Agreements

- Purchased Dry Ridge lease subject to successful permitting and geologic validation
- Ownership and exploration of Husky 2 / Freeman Ridge leases provide incremental potential for additional mineral reserves (subject to successful permitting and geologic validation)(1)

Additional Resources

Planned capital expenditures of \$6 - \$8 million during 2025 – 2027 for exploration drilling, resource evaluation, and permitting

2025 program includes delineation drilling at 250' spacing on Husky 1 and on 2,000' centers on Dry Ridge, and core drilling of Husky 3 and 4, with objective to determine upside potential of resources along the current mine trend and optimization of current infrastructure being built out at H1/NDR

ARRAIAS: POISED FOR GROWTH

Vertically integrated phosphate fertilizer business

PHOTO: Arraias Business in Tocantins, Brazil

- Strategically located in Tocantins, Brazil, one of the world's fastest growing fertilizer markets
- Introduced new products to Brazilian fertilizer market, I-Active (DAPR) in 2023 and SuperForte Duo (PAPR) in 2024
- Re-commissioning granulation facility and pursuing options to restart SSP production

ARRAIAS: FIELD TESTS DEMONSTRATE VALUE

New products promote growth and root development

HIGH-GRADING PORTFOLIO

Opportunistically monetizing assets, with intention of returning excess cash to shareholders over the long-term

Sold (closed in February 2025)

Araxá, Brazil

- Combination of cash payments and future upside from retained minority interest
- Initial proceeds used to fund special dividend of CAD\$0.05 per share

Other Potential Developments

Santana, Brazil

 One of the highest-grade phosphate resources in Brazil with Measured and Indicated mineral resources of 60.4 Mt @12.0% P₂O₅

Farim, Guinea Bissau

- Completed NI 43-101 in 2023
- 25-year life of mine and additional resources
- Measured Resources of 102.5 Mt @ 28.5% P_2O_5 ; Inferred Resources of 31.1 Mt @ 28.1% P_2O_5 ; and Proven Mineral Reserves of 43.8 Mt @ 30.0% P_2O_5

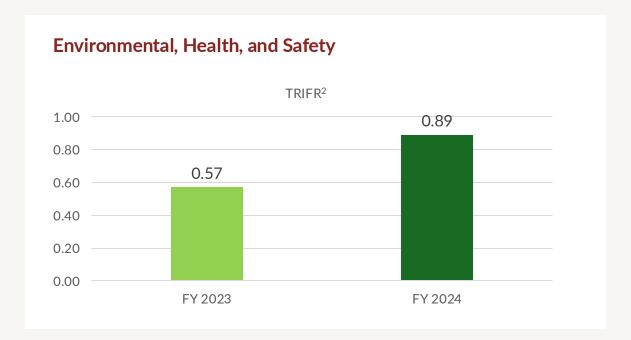

FULL YEAR 2024 RESULTS

Consolidated results

Revenues (\$MM)	Net Income (\$MM)	Adjusted EBITDA ¹
\$491.2	\$87.8	\$159.5

2025 GUIDANCE

A PURE-PLAY PHOSPHATE AND SPECIALTY FERTILIZER COMPANY

Itafos continues to focus on creating long-term shareholder value to close valuation gap to peers.

Operational Excellence

- ✓ High utilization
- ✓ Long-term offtake and supply contracts

Disciplined Investment

- ✓ Diligently maintaining assets to drive performance
- ✓ Proactively investing in projects to increase resources and enhance quality of operations

High-Grading Portfolio

- ✓ Maximizing value of foreign assets
- Returning excess cash to shareholders over the long-term

MANAGEMENT TEAM WITH A PROVEN HISTORY OF DELIVERING STAKEHOLDER VALUE

David Delaney **Chief Executive Officer**

- Itafos CEO since November 2020
- Oversaw 16 sites as COO & EVP of PotashCorp
- Over 30 years of experience in leadership roles within the fertilizer and agriculture sectors
- Current board member of the International Fertilizer Association and TFI
- Began career in sales at Arcadian Corporation
- Education: BSC in Agriculture, Southern Illinois University

Matt O'Neill Chief Financial Officer

- Itafos CFO since August 2022
- Over 25 years of experience in leadership roles within the finance industry
- Raised over \$7 billion in capital across both U.S. and international markets
- Prior to Itafos, served as CFO at Hawkwood Energy
- Education: B Com, University of Melbourne

Tim Vedder VP Operations & GM of Conda

- Conda GM since January 2014
- Over 20 years of experience in operational leadership roles, including 16 years in phosphate production and seven years in semiconductor production
- Education: BSC in Chemical Engineering, Washington State University

Geoff Williams VP, General Counsel, & Corporate Secretary

- Itafos VP, General Counsel & Corporate Secretary since July 2024
- Over 20 years of large law firm and in-house corporate transactional legal experience
- Over 10 years of experience in senior leadership roles for publicly traded companies (NYSE, Nasdaq, TSX and ASX)
- Significant experience in the mining industry and fertilizer industry
- Education: B.A., International Affairs, University of Colorado at Boulder; J.D., University of Denver, Sturm College of Law

Adjusted EBITDA Margin (Adjusted EBITDA / Net Sales)	35.9%	26.0%	26.4%
Nutrien (Phosphate Segment)			
Adjusted EBITDA ³	594	470	384
Net Sales	2,377	1,993	1,657
Adjusted EBITDA Margin (Adjusted EBITDA / Net Sales)	25.0%	23.6%	23.2%

^{1:} Non-IFRS measures; refer to disdaimer, appendix and the Company's MD &A for definitions and reconciliations

^{2:} Adjusted EBITDA presented at the segment level is defined as the related segment's operating earnings (loss) plus depredation, depletion and amortization, plus asset retirement obligation accretion, plus foreign exchange gain (loss), plus other income (expense) plus dividends from equity investments, less earnings (loss) from noncontrolling interests. Adjusted EBITDA is also adjusted for notable items that management excludes in analyzing our performance. We (Mosaic) provide these non-GAAP financial measures because we believe they are relevant and useful to securities analysts, investors and others because they are part of our internal management reporting and planning process, and our management uses these measures to evaluate the operational performance and valuation of our segments. Management also uses these measures as a method of comparing

^{3.} EBITDA is calculated as net earnings (loss) before finance costs, income taxes, and depreciation and amortization. (Nutrien) considers adjusted EBITDA to be a meaningful measure because it is not impacted by long-term investment and financing decisions, but rather focuses on the performance of our day-to-day operations. In addition, it excludes the impact of impairments and other costs that are centrally managed by our corporate function.
